

Letter To The Editor/Gas-Backlash targets Lautenberg

Gas Revolt Association

Dear Editor:

Our **GRA**”**Gas Revolt Association**” is a grassroots movement that has been created to solve our energy and soaring food crisis. It is necessary for us ordinary people to bypass both political parties and work together. Both political parties are funded by the oil oligarchy that is ripping us off. Hence we the people must grab the bull by the horns and turn our deaf ear towards the incumbents and their rhetoric.

The solution begins by removing the cause of escalating prices, which is created by extraordinary deliberate restriction of our oil supply. My point is once we lift that **“Congressional hurdle”** that is choking off our oil supply, gasoline and food prices will fall as fast as they are now spiraling.

I believe that our movement’s most important strategy is to circulate as many copies of our **“Dump Lautenberg”** flier as possible because we do not want the Establishment blaming his old-age for his defeat. It will take a huge statewide flier blitz to pin his loss on his liberal energy record and not his old age.

In my judgement the internet and the e-mail network will play an important role in helping us distribute that flier. I expect to see our flier on websites, bulletin boards, in shopping malls and in homes across the Garden State. If you want to join our flier blitz, send a self-addressed stamped envelope to: Gas Revolt Association, 14 Preston King Trail, Oak Ridge, NJ 07438.

“Every nation has the gas prices it deserves!”

Thomas Paine Caslander

P.S. Anyone can post our flier on their website!
